 MAGNETIC FACEMASK INTEGRATION

THE SNOWHAWK® COLD WEATHER GOGGLE SYSTEM

Protects in the most extreme environments, completely eliminating exposed skin.

INTRODUCING the world's first-ever fully integrated ballistic goggle and balaclava system offering 100% face coverage, supreme anti-fog performance and ballistic protection. Collaborating with ANON, an industry leading snow sports brand, Revision developed a goggle that provides unmatched ballistic protection and performance in extreme weather conditions. The SnowHawk system includes a magnetically integrated balaclava which seamlessly connects to the goggle. Operators can rely on the system's fog prevention for peak performance in cold climates without compromising protection.
